PREPARING A SHIPMENT

The Cash Boy Consolidated Mining company will ship another carload of ore ready to go out next Wednesday. The face of the stope is looking very well. Improved assays are gotten from the face of the long drift.

FUNDS ARE EXHAUSTED

The relief committee, which was an outgrowth of the community Christmas tree movement, finds itself now without funds. A public entertainment is planned to raise money.

LIBRARY STORY HOUR

The story hour tomorrow will be conducted by Mrs. E. D. Mills, at the library, from 10 to 11 o'clock. All children between five and ten years of age are welcome.

SEMI-MONTHLY DANCE

Tomorrow evening the Goldfield hotel will hold its regular semi-monthly dinner dance which has come to be regarded as one of the chief social events of the southern country.

If you want the telegraph and local news—try the Bonanza.

GREAT WESTERN FIGHTING WATER

QUARTZ STRINGERS SHOW IN THE CROSSCUT JUST STARTED

Far down to the westward on the flat there arises a gallow's frame. It surmounts a shaft that was sunk years ago. Around it is a considerable acreage, the bore having been sunk on the Rex claim, one of twenty-three, each consisting of approximately twenty acres or less, a total of some two hundred, comprising the Great Western group.

There is a world of ground to catch the westward continuation of the Tonopah system and to pursue the ledges on the dip. The crosscut that is being driven south from the shaft at the 150 foot point puts its heading toward the center of the group. It is less than forty feet from the lagging; that two events occurred, one being the getting of ore and the other striking of water.

At all events there is a block of West End rhyolite south from the shaft and in it there are seams of quartz. Some of them assay only a dollar or two a ton, while others yield as high as \$20. Drifting will be necessary to determine the existence of a lens.

That, however, is for the present out of the question. Ore is a secondary matter to water which is pouring into the crosscut at the rate of 125 gallons a minute.

A pump was installed on the station and another on a level above. Then a concrete barrier, with a steel door, was constructed. Now the water is firmly held and will continue to be, until the shooting of the drilled holes augments the flow. It is believed that this is but a subterranean reservoir that is being drained.

The plant is a heavy one, capable of sinking to great depth, but the shaft will not be continued down any farther until after a considerable amount of lateral development. In crosscutting toward the Rubies, depth on the dipping formation is steadily attained.

In the Bonanza, which is controlled by the same people as the Great Western and is under the same management, the shaft is being sent downward by two shifts and the 1500 foot point is expected to be reached in about six weeks. The formation is now what might be termed a bird's eye porphyry showing chlorite stains and redepositions of lime. From all appearances the capping will soon be pierced.

LUTHERAN SERVICES

It is herewith brought to the attention of all those that have been attending Lutheran services in the past and all those who will do so in the future that regular Lutheran services will be conducted at the Presbyterian Church on the evening of the 11th of April. The services will begin at 8 o'clock.

DISSOLUTION SALE

The dissolution of partnership announced a year ago terminates in us retiring from business or in selling out in bulk to any successor, firm or individual. During this time we will offer all merchandise, throughout all departments, notwithstanding the advanced prices in this season's goods, just received, at very moderate rates. We have always endeavored to handle good goods, and meet other competitors who offer inferior merchandise. Now is your time to buy our goods, at the lowest retail price, as you will surely get full value for your money. Call and examine our goods and prices.

RYAN & STENSON

OLD TIME FIRM TO GO OUT OF BUSINESS

SPLENDID BARGAINS WILL BE SHOWN BY RYAN & STENSON

One of the oldest established and most reliable firms in Tonopah is that of Ryan & Stenson. It has been doing business here since the early days of the camp and has always had a reputation for square dealing and for progressive methods.

As time passed on the two older members of the firm decided to retire and the closing out sale, which is advertised elsewhere in this paper is the result. Tomorrow morning the store will re-open with the new slash ed prices plainly marked.

MACHINERY ARRIVES FOR GYPSY QUEEN

SHAFT WILL BE DEEPENED AND CROSSCUT RUN TO PICK UP THE ORE

The pump and compressor for the Gypsy Queen arrived last evening and are being installed today. The pipe line is expected tomorrow. As soon as the new appliances are in position the shaft will be continued down an additional 150 feet and a crosscut run to a point beneath where the ore was recently encountered.

Japanese Needlewomen.

The daughters of the land of flowers sometimes curiously reverse European methods. They needle their thread instead of threading their needles, and instead of running their needle through the cloth they hold it still and run the cloth upon it. An English lady long resident in Tokyo once wrote to a friend that the impulse of her Japanese maids is always to sew on cuff frills and other similar things topsy turvy and inside out.

Two Important Matters.

"Now, Katie, do you know enough to keep your mouth shut?" asked the fashionable woman of the girl she was about to engage.

"Well, ma'am, I know enough to all right, but the question is, do I get enough wages to encourage me?"—Yonkers Statesman.

Selfishness.

The selfish man suffers more from his selfishness than he from whom that selfishness withholds some important benefit.—Emerson.

PEBBLES COMING FROM THE COAST

SAN DIEGO GRINDING MATERIAL IN COMPETITION WITH THE BEST GRADES

H. J. Hall & Company, of San Diego, are shipping pebbles to local mills at a rate that promises to quickly supplant all other products. The pebbles are gathered from Bird Rock Beach and have a cleaner cutting edge than the best imported stones, while the difference in cost makes it an object to buy on the southern coast. The Tonopah Extension mill has been using these pebbles for some time and the mill superintendent says they are the best that have been tried in Tonopah for the cost of the pebbles.

GIRLS OF THE SEVENTH GRADE ENTERTAIN THEIR FRIENDS

A delightful luncheon was given yesterday by the girls of the seventh grade under the direction of the domestic science teacher, Mrs. Smith. The young ladies prepared the entire menu.

The luncheon was served in a most delightful manner and well chosen appointments marked efficient training. The guests were Prof. George Dilworth, Miss Bradley, instructor of the seventh grade, Miss Gower, Miss Tipton, Miss O. Smith and Mr. Smith. An interesting party is planned for next week at which the boys will be hosts.

FLORENCE FLOTATION RUNS WITH EXCELLENT RESULTS

Rube Kelly, after examining the mechanical end of the Florence flotation plant, expressed himself perfectly satisfied with the work which is operating as well as any new installation. A few alterations will be made in the mechanical details to secure greater smoothness but these changes will not interfere with operations.

AMUSEMENTS

BUTLER THEATER

The program tonight at the Butler will consist of a one-reel comedy entitled "Mr. Jack, a Hall Room Hero," featuring the celebrated comedian Frank Daniels, in his initial appearance on the screen. He is noted for his high class comedy, having been a great stage favorite, and his introduction to the screen is looked forward to with a great deal of interest. The big feature on the program is Israel Zangwill's masterpiece, "Merely Mary Ann," a play of love, romance and, above all, optimism, and through a strange co-incidence, Vivian Martin, who was featured in yesterday's World production, "Overnight," is playing the leading role in this picture which is a Fox production, the two roles, however, being entirely different, shows the versatility of this diminutive star who is always a great favorite whenever she appears. The story is one dealing with a country girl, who, left alone, faces the big city's temptations and wins. Mary Ann is leading the care-free existence of the average small girl in the average small town when her mother dies and leave her in poverty. She herself openly declares her unwillingness to be an object of charity, and her family pastor casts about for some occupation for her. He finally decides that the Big City will offer the most ready means and secures for her employment as a maid in a big city boarding house, and here the story begins. "The Vultures of Society," a Big-Four feature. An added attraction to the regular program on Monday night will be The Los Angeles Trio who will sing old southern melodies and the late popular songs, playing their own accompaniment on string instruments.

INJURED MAN IMPROVING

W. J. Ryan, who was injured by a fall at the Sand Grass shaft, is improving although his injuries were rather serious.

EVERYTHING TO MAKE A HOUSE LOOK LIKE HOME

Spring is here, with the accompanying changes in the domestic economies. Rugs are needed for the floors. Furniture is desirable to place on the rugs. Tapestries are desirable, as well as kitchen linoleums and other accessories. W. O. Dresser has received a magnificent line of what creates "home, sweet home." It's cheaper to buy from him than to patronize catalogue houses and more satisfactory in every way. He and his assistants delight in showing goods.
